ance Notes on Codes and Abbreviations" appearing at the begin-
ning of each regular issue of the PCT Gazette.

(54) Title: OVEN OR GRILL BURNER, VENTURI TUBE, MOUNTING FOR A THERMOCOUPLE AND/OR AN IGNITER,
AND PROCESS FOR FABRICATING SAID BURNER

(57) Abstract: The invention relates to an oven or grill burner, composed two half shells, one whereof is perforated, which are tightly joined together along at least a portion of their edges, so as to form a tubular body communicating with a venturi tube. According to the invention, at least two corresponding ends of the two half shells have a truncated profile, so that said tubular body has at least one truncated end. The invention further relates to a venturi tube for said burner which, according to the invention, is composed of two half shells. Also, the invention relates to a mounting of a thermocouple and an igniter, still for said burner, which mounting, according to the invention, has such coupling means that mutual contact surfaces are oriented in at least three non-parallel planes, and have means for preventing mounting rotation, so that the position thereof is accurately defined. The invention also relates to a process for fabricating said burner.
